Bereishis 1:1-1:5 Yossi Review Sheet

Purpose: Yossi is only confirming extraction accuracy and mapping reasonableness.

This is not runtime approval. This is not generated-question review. This does not make anything student-facing.

What to check

1. Confirm the Hebrew phrase matches the trusted source.
2. Confirm Metsudah translation context is joined to the correct pasuk.
3. Confirm Koren secondary context, where present, is joined to the correct pasuk.
4. Confirm skill classification is reasonable.
5. Flag rows that should stay source-only or blocked for questions.

Allowed decisions

`verified`, `fix_translation`, `fix_hebrew_phrase`, `fix_skill`, `source_only`, `block_for_questions`, `needs_follow_up`

Counts

Total rows: **23**
Flagged rows: **23**

Runtime: blocked | **Question-ready: blocked** | **Student-facing: blocked** | **Reviewed bank: blocked**

Rows are sorted by attention priority: uncertainty, missing translation, missing/unclear skill, standards mapping uncertainty, representative clean rows.
